Light Oak Parquet

# VINYL TILES

## COVERDECK SYSTEMS®

**VINYL TILES** are a great solution for temporary or permanent indoor flooring. The interlocking tray, which is impervious to water and moisture, elevates the Vinyl finish 3/8" off the sub-floor. This design promotes air flow under the tiles, helping to prevent any moisture retention.

The snap together design makes installation easy and fast; requiring no special tools or adhesives.

Coverdeck Systems® Vinyl Tile, with its 304 supporting legs, can accept over 16,000 lbs of dead load. For temporary use of the VINYL TILE outdoors, avoid prolonged exposure to direct sunlight and the outside elements.

Keeping your tiles clean is easy; simply mop the **VINYL TILE** using water and standard cleaning fluids.

### FEATURES:

- Low-maintenance
- Installed or removed quickly
- No tools or adhesives needed
- Looks great
- Easy to clean

### APPLICATIONS:

- Basements
- Basketball courts
- Laundry rooms
- Recreational areas
